

Computer Science
UNIVERSITY OF TORONTO

February 10, 2023

To whom it may concern:

This letter is to confirm that Jiangshan Yu has been accepted to the full-time, 16-month Master of Science in Applied Computing (MScAC) program offered by the Department of Computer Science at the University of Toronto. The program will start on September 1, 2023, with an expected graduation date of June 30, 2025.

As a formal mandatory requirement, students enrolled in the MScAC program are required to complete a full-time co-op internship spanning the last two semesters of the program. In total, the internship is eight months in duration and during this time students are expected to work full-time (40 hours a week) at one of our partner companies. This mandatory element requires international students to be in possession of a work permit.

If you have any further questions regarding this, please do not hesitate to contact me.

Yours sincerely,

Arvind Gupta
Professor
Academic Director, Professional Programs
